Components	Category	Qty	Physical Status	Assembly Verification	Status	Evidence Available	Reusable
Ground Reference	Structural	1	To be 3D printed	Pending	Pending	Not Available	Potentially Reusable
H Frame1	Structural	1	To be 3D printed	Pending	Pending	Not Available	Potentially Reusable
RX_64	Actuation	0	Pending	Pending	Not Physically Tested	Not Available	Potentially Reusable
c bracket	Mechanical Interface	4	Available	Verified	Not Operationally Tested	Available	Potentially Reusable
disc(1)	Structural	8	Available	Verified	Not Operationally Tested	Available	Potentially Reusable
link1	Structural	4	Available	Verified	Not Operationally Tested	Available	Potentially Reusable
c bracket2	Mechanical Interface	4	Available	Verified	Not Operationally Tested	Available	Potentially Reusable
RX_28	Actuation	0	Pending	Pending	Not Physically Tested	Not Available	Potentially Reusable
C bracket 3	Mechanical Interface	4	Available	Verified	Not Operationally Tested	Available	Potentially Reusable
Smaller Disc	Structural	0	To be 3D printed	Pending	Not Operationally Tested	Available	Potentially Reusable
lower link	Structural	2	Available	Verified	Not Operationally Tested	Available	Potentially Reusable
Foot	Structural	4	Available	Verified	Not Operationally Tested	Available	Potentially Reusable
M2.5 × 16 bolts	Fasteners	96	Available	Verified	Not Operationally Tested	Available	Potentially Reusable
M2.5 nuts	Fasteners	0	Hardware Procurement	Pending	Pending Physical Actuation	Not Available	Potentially Reusable
Leg Assembly	Mechanical Assembly		Not Assembled	Pending	Pending Physical Actuation	Not Available	Prototype Only
Quadruped Locomotion	System Capability		Simulation Demonstrated	Verified	Physical Runtime Pending	Not Available
