ITEM NO.	PART NUMBER	DESCRIPTION	QTY.
1	Ground	Reference ground/base for robot assembly and simulation.	1
2	H Frame1	Main chassis frame supporting the quadruped legs.	1
3	RX_64	Servo actuator for the hip/main leg joint.	4
4	c bracket	Mounting bracket for RX-64 servo.	4
5	disc(1)	Circular joint disc for mechanical connection and motion transfer.	8
6	link1	Upper leg link connecting the hip and knee assemblies.	4
7	c bracket2	Mounting bracket for RX-28 servo.	4
8	RX_28	Servo actuator for the knee joint.	4
9	C bracket 3	Support bracket for the lower joint assembly.	4
10	Smaller Disc	Circular disc for lower joint connection and motion transfer.	4
11	lower link	Lower leg link connecting knee to foot.	4
12	Foot	Ground-contact component supporting the robot.	4
13	IS 1364 HHB(Grade A) - M2.5 x 16 x 11-N	Hex-head bolt for component fastening.	96
14	nut2.5	Nut for securing M2.5 fasteners.	96
